PROFESSIONAL EXPERIENCE

Frontend Developer Intern E-skill Web

Indore

Achievements/Tasks

- As a Frontend Developer, I have a strong track record of crafting visually compelling and responsive web interfaces. I excel in collaborating with design and backend teams to bring concepts to life, ensuring optimal user experience, cross-browser compatibility, and performance. My expertise in HTML, CSS, and JavaScript is leveraged to create engaging and user-friendly websites and web applications.

PERSONAL PROJECTS

Authentication App register and login User

- Implemented the Login and Register system using React.js for building the user interface and managing state.

News App

- Developed a web-based News App that allows users to browse and search for the latest news articles from various sources using React.js for the frontend.

Ecommerce Website

- An e-commerce website built using Redux offers a seamless shopping experience with advanced state management. It enables users to effortlessly add and remove products from their cart while efficiently handling data retrieval from external APIs, ensuring a dynamic and user-friendly shopping platform.

Quate App

- The Quote Generator app, created with React, provides an engaging way to explore and share inspirational and thought-provoking quotes. Users can easily generate and discover a wide range of quotes, making it a delightful tool for daily motivation and sharing wisdom with others.

Weather App

- A weather app crafted with HTML, CSS, and JavaScript delivers real-time weather information in a visually appealing and user-friendly interface. Users can easily access up-to-date weather data, making it a simple yet effective tool for staying informed about current weather conditions.
